✳ **ACCESSBYTE SOLUTIONS**

COMPANY BROCHURE

Information. Without barriers.

A practical introduction to AccessByteSolutions accessibility services, quality-first workflows and cross-industry support.

DIGITAL ACCESSIBILITY / DOCUMENT REMEDIATION / QUALITY REVIEW

Services at a glance

Documents, websites, media and accessible digital content

01 / PDF remediation

Semantic tagging, reading order, headings, tables, alternative text and bookmarks.

02 / Accessible Office files

Word, PowerPoint and Excel documents organized for improved accessibility.

03 / Website accessibility

Keyboard, screen-reader, focus and WCAG-oriented evaluation workflows.

04 / Multilingual content

Language-aware document structure and localization handoff.

05 / Accessible media

Captions, transcripts and accessible media preparation.

06 / White-label support

Agencies and publishers can discuss structured accessibility production.

Healthcare + 20 industries

Complex information calls for careful structure and review

Healthcare document types

- ✓ **SBC: Summary of Benefits and Coverage**
- ✓ **EOC: Evidence of Coverage**
- ✓ **Provider and pharmacy directories**
- ✓ **Drug formularies and tier listings**
- ✓ **Complex tables, disclosures and plan documents**

Broader sector coverage

Government, education, healthcare, finance, insurance, legal, publishing, enterprise, localization, marketing, SaaS and technology, non-profits, manufacturing, retail, hospitality, real estate, logistics, utilities, telecom and automotive.

Workflow and validation

Human checks complement automation

01 Review the sample

Identify document types, complexity, target standard and project requirements.

02 Agree on scope

Confirm language needs, acceptance requirements, timelines and handling controls.

03 Remediate content

Address tags, semantic reading sequence, tables, descriptions and links.

04 Validate and hand off

Combine automated checks with manual document and screen-reader review.

Tools: JAWS, NVDA, Adobe Acrobat and PAC / PDF Accessibility Checker.

Standards and next steps

Compliance claims require project-specific verification
